REYES MAY BE RULER

(Continued from First Page.)

United States Consul General Gudger

Gives France Some Fears.

PARIS, Nov. 21.—Considerable attention is being paid here to the landing of the force of American marines at Colon, particularly in view of Secretary Hay's recent speech. The Patrie publishes an alleged telegram from New York announcing that the French consul at Colon has vigprotested against the Am action and that he has cabled to his government for instructions. Inquiries made in official circles here elicit the fact that nothing is known there of such a protest The news is discredited and it is pointed that the United States is perfectly within its treaty rights. France has no ground for complaints and does not intend to interfere, except in the event of its own

The Journal Des de Bats, commenting or the alleged contrast between Secretary Hay's assurance that the United States does not covet the territory of other American republics and the landing of the marines from the gunboat Machias, says: "The events on the isthmus of Panama furnishes the United States government with an opportunity of proving practically to what

The Francais says: "France will give President Roosevelt's government the legitimate confidence it asks for and deserves." The Liberte, on the other hand, accuse Washington of seeking a pretext to seize the isthmus and declares that the Ameri cans will now strive their utmost not to

Confirmation of Story on Yakon rising, but Statement that Scheme is Dead.

SEATTLE, Wash., Nov. 21.-The Evening Times of Seattle publishes in today's issue s story which is offered as confirmation of a story published in the San Francisco Call to the effect that a conspiracy had been planned, covering the entire northwest territory, for the overthrow of Canadian rule gives the first warning. and the establishment of an independent republic. The Times in its article lays great stress

on the story obtained from Fred Clark, formerly a stage manager in this city, but who has been in the Yukon for some time, in which he admits a knowledge of the Order of the Midnight Sun, which is supposed to have been organized for the sole purpose of the rebellion. It is claimed that the order was originally instituted in strict secrecy in Dawson, in December of 1900, and from there spread along the length of the Upper Yukon, with branches as far as Circle City on one hand and to Skagway and Atlin on the other, it is claimed that men came to Seattle in the interests of the uprising and solicited support in the way of financial contributions. The Times says swell, that no arms were bought. The total membership of the Order of the Midnight Sun is placed at 1,500, although the members confidently expected outside assistance that would bring the total of the army of insurcetion to almost 5,000

The Times says that in the early days of the organization a circular was issued and secretly distributed to disaffected miners on the Upper Yukon, in which nineteer, different clauses were given as being reasons for an uprising. Those dealt with defeetive mining laws, corruption of officials royalty, liquor traffic and gambling, delays in the court of British Columbia allen act luties, miners' and loggers' license, record fees and boundary disputes. A similar cir cular was handed to business men of Skagway, in which they were solicited to add places in the hands of those at the head financial support to the enterprise and for of the movement a power that contains the a time Clark made his headquarters at the elements of peril. CANCER

Sufferers from this horrible malady nearly always inherit it -- not necessarily from the parents, but may be from some remote ancestor, for Cancer often runs through several generations. This deadly poison may lay dormant in the blood for years, or until you reach middle life, then the first little sore or ulcer makes its ap-pearance—or a swollen gland in the breast, or some other part of the body.

To cure Cancer thoroughly and permanently all the poisonous virus must be eliminated from the blood- every vestage of it driven out. This S. S. S. does, and is the only medicine that can reach deep-seated, obstinate blood troubles like this. When all the poison has been forced out of the system the Cancer heals, and the disease never returns.

Cancer begins often in a small way, as the following letter from Mrs. Shirer shows : . A small pimple came on my jaw about an inch below the ear on the left side of my face. It gave

me no pain or inconven-eince, and I should have forgotten about it had it not begun to in flame and itch; it would bleed a little, the ascabover, but would not heal. This continued for some time,

sis the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Send for our free book on Cancer, containing valuable and interesting information about this disease, and the greatest of all write our physicians about your case. Make no charge for medical advice.

American People Respond Liberally to Selicitation for Funds.

ORGANIZATIONS IN NEARLY EVERY STATE

If More Funds, Are Received Than Needed Balance Will Be Devoted to Arch Project in

424 . . CLEVELAND, O., Nov. 21 .- The executive committee of the McKinley National Monument association, after a lengthy ses-

Washington.

At a meeting of the executive committee of the McKiniey National Memorial association held in Cleveland today the scenerary. Ryerson Ritchie, submitted reports from many states of the union, showing graffying progress, and that the appeal to the people to provide funds for a memorial at Camon is meeting with very general and hearty response. A plan for future work was outlined and the same will be pushed vigorously to completion. Reports received indicate that auxiliary organizations have aiready been perfected in nearly all states of the union.

The expression of sentiment from every quarter of the country indicates that the people desire to make the erection of a monument at the home of President McKinley their first duty, as it is well known that he often expressed to his family and friends his desire to be buried at Canton, where aiready repose the remains of his children and where his beloved wife will rest when she departs this life.

In deference to this sentiment, as well as to the propricty of the occasion, as evidenced in the monuments provided for the famented Lifecoln and Garfield, it will be the purpose of the association to carry forward the work of providing for such a memorial at his home. Should more funds he subscribed than are necessary for the purpose of erecting a memorial compatible with the dignity and simplicty of the late president's life and character, any surplus will be devoted to a national memorial at Washington.

Gage's Letter Referred.

Gage's Letter Referred. A letter from Secretary Gage, treasurer of the Washington Arch association, to Senator Hanna was laid before the commission, but the questions contained therein erred to the board of trustees at their meeting in Washington.

It was the sentiment of the members of the committee present that provision for first duty to be performed. This purpose is believed to be in accordance with the W. R. Day, Senator M. A. Hanna, Colonel Myron T. Herrick, General H. M. Duffield,

William McConway and Ryerson Ritchie. MASS MEETING TALKS TAX

(Continued from First Page.)

Denverites delemined to make corporations pay a reasonable sum for the use of the streets. Last week a steam heating company's franchise was renewed with the stipulation that 3 per cent of the gross receipts is to be paid to the city in the beginning and eventually 8 per cent is to be paid to the city.

An electric light company's franchise was renewed with similar conditions and with the provision that the plant may be purchased by the city at the end of nine years in case the city sees fit to buy it.

Denver has made provision for a charter convention which is to prepare a charter for submission to the people. Charters are to be submitted until one shall be prepared which will meet the approval of a majority of the voters of the city. The state legislature is to have nothing to do with Denvert charter after its adoption. It is the purpose of Denver to lodge the government of the city in the hands of the people who are to be governed. No franchises are to be granted without a vote of the people. The municipal mind should be so educated that the partisan views of an officer would be disregarded. Party lines should be laid aside in municipal politics. The stability of officers to perform their duties, regardless of their politics, should be considered. The great political strife and the efficient heaped upon officials makes it almost impossible to get good men to hold office.

In Denver the market price of a corpora-

almost impossible to get good men to hold office.

In Denver the market price of a corporation's stocks and bonds is made the basis of taxation. This plan makes it possible to get at values which escape under other systems of taxation. In Deaver the taxable valuation of corporation property was increased \$8.347.442 by this system of getting at the values of corporation property.

The taxation of franchises is a hobby with me. Men do not understand how valuable franchises are until a study is made of the income of corporations. I endorse all that has been said concerning the consolidation of county and city governments. There is no reason why two sets of officers should be maintained where one set can do the work.

The movement for reform in Omaha emanates from the right body. In Denver it was the result of work among the masses and the improvement was the result of a revolution.

Want Permanent Organisation. The fellowing resolution offered by John

B. Knox was adopted: Whereas, a permanent organization is necessary to properly arrange for and carry out the proposed changes in the govern-ments of Omaha, South Omaha and Doug-

ments of Omaha, South Omaha and Douglas county.

Whereas, This question is of vital importance to all taxpayers and citizens; be it. Resolved. That the Omaha Réal Estate exchange be relieved from further mansgement of the subject and that the chairman of this meeting appoint a committee, composed of fifteen citizens of Douglas county, which shall as soon as possible formulate a plan for a permanent organization; and further

Resolved, That the chairman of said committee shall as soon as the report of the committee is prepared call another general meeting of citizens for the formation of the proposed organization.

Chairman Manderson said that he would

Chairman Manderson said that he would require some time to make the selection

Some Abanedities Pointed Out.

City Engineer Andrew Rosewater criticized some of the plans suggested for reducing taxes and declared that it is absurd to say that an annual saving of \$400,000 can be made by consolidating city and county governments, when the combined salaries of all the public officials in the county is less than \$150,000. He explained that the salaries paid by the city of Omaha are less than 8 per cent of the expenditures of the city and that 92 per cent of the money spent is in fixed charges which cannot be

avoided. Mr. Rosewater called attention to the injustice of comparing the expenditures of Omaha with those of Denver and explained that Denver has twenty-one miles of paved streets, while Omaha has eighty-five miles of paving, yet Omaha pays less for cleaning of Omaha's city limits is responsible for the heavy expenses of the city and he attributed the increase in taxation to a decrease in valuations rather than to an increase in the city's expenditures.

Some Unfair Figures. The city engineer declared that the financial statement prepared by City Comptroller John N. Westberg shows the indebtedness eafer place of confinement at the farther of the city to be \$8,000,000, when it is only end of Panama. \$6,000,000, and explained that interest for all the time which outstanding obligations

are to run is included in the statement. Mr. Rosewater said he prepared a home rule bill, similar to the one under which St. on account of the opposition it met I the hands of corporations. He declared that unwilling to favor such a weasure for fear of incurring the displeasure of powerful corporations. Mr. Rosewater declared that there would be the same healtancy about supporting any measures which would assess taxes on the franchises of great cor-

President Henry Fink of the Norfolk & Western and ask him to furnish cars, even at the expense of other traffic. If this committee is unable to relieve the situation they will lay the subject before the Department of Agriculture and enlist the gov-The local representative of the National Salt company says the mines are 150 cargrowing worse each day. The Saltville

CHICAGO. Nov. 2i.—Representatives of the various clubs in the Illinois. Iowa and Indiana base ball league met here today and perfected plans for next season. It was decided to keep the circuit the same as for the last year, giving franchises to Terre Haute. Decatur. Bloomington, Rockford, Rock Island, Davenport, Cedar Rapids and Evansville. President C. P. Powers of the Western association, who attended the meeting, tried to get the towns of Evansville and Terre Haute into his league, but the cities in question voted to remain in their present company.

cold wave at night in eastern portion; Sat For Iowa-Rain or snow, colder, Friday cold wave at night; Saturday generally For Missouri-Rain Friday, colder
